

ALKIRA TRANSPORT

CAPABILITY STATEMENT 2025

> CORE CAPABILITIES

Alkira Transport provides end-to-end transport and logistics solutions underpinned by robust compliance and quality systems, including NHVAS accreditation, Chain of Responsibility adherence, and ISO-aligned processes for safety and quality. We manage complex contract administration and tendering, coordinating a network of experienced operators to deliver general freight, container haulage, quarry and construction materials, specialised heavy transport, and on-demand services.

Our team ensures timely, efficient, and compliant service delivery while supporting Indigenous participation and helping clients meet social procurement objectives.

> INDUSTRIES SERVED

- Construction & Civil Infrastructure.
- Mining & Resources.
- Renewable Energy Projects.
- Local & State Government.
- Manufacturing & Distribution.
- Logistics & Supply Chain.

> WHO WE ARE

Alkira Transport Pty Ltd is an Indigenous-owned and operated transport business committed to delivering reliable, safe, and socially responsible logistics solutions across Australia.

We specialise in coordinating government and corporate transport projects, leveraging our expertise in heavy vehicles, container haulage, and freight management. With a strong commitment to sustainability and community, Alkira Transport is positioned to serve government and corporate sectors, providing strategic logistics support and driving long-term value for our clients.

Guided by strong governance and compliance standards, we combine operational excellence with a focus on Indigenous employment pathways and community impact.

> KEY SERVICES

• General Freight Transport

We provide reliable transportation of palletised goods, packaged freight, and general cargo across metro, regional, and interstate routes. Our flexible solutions cater to both scheduled and ad-hoc freight requirements, ensuring timely and efficient delivery every time.

• Container Haulage

Our container haulage services include full container load (FCL) and empty container movements, with side loader, skel trailer, and swing-lift capability. We handle wharf and depot pickups and deliver directly to customer sites, ensuring compliance with Chain of Responsibility and container weight regulations.

• Quarry & Construction Material Haulage

We deliver a wide range of quarry products, including road base, aggregates, sand, gravel, and fill, supporting bulk material movements for infrastructure and civil projects. Our services are available on-demand or for project-based supply and delivery requirements.

• Specialised Transport Services

We offer oversized and heavy haulage, as well as the transport of construction equipment, plant, and machinery. Our specialised services support energy, mining, and infrastructure projects with tailored solutions to meet complex transport needs.

• On-Demand Transport Solutions

Our rapid response transport services cater to urgent and time-critical loads, with flexible fleet availability to meet variable project demands. We integrate with client scheduling systems to maximise efficiency and minimise delays.

• Fleet & Compliance

Our modern fleet is maintained to the highest safety standards, with GPS tracking and real-time communication. We ensure full compliance with Heavy Vehicle National Law, Chain of Responsibility, and WHS legislation, supported by highly trained drivers with industry-recognised qualifications.

• Community & Indigenous Engagement

As an Indigenous-owned and operated business, we are committed to local employment, training, and supplier diversity. We deliver measurable social and economic benefits to communities, reflecting our dedication to responsible and inclusive business practices.
